### BELFORD'S MAGAZINE.

DONN PIATT, Editor.

THOUGH BELFORD'S MAGAZINE IS THE latest number in the field of periodical literature, the best proof of its prosperity is the fact that its paid up subscription list has reached a figure eminently satisfactory to the publishers.

Belford's Magazine is distinctly American and commends itself to all intelligent and thoughtful persons who wish to keep themselves posted on the great questions of the day. Under the able and brilliant management of Col. Donn Piatt it will each month in its editorial department speak out fearlessly but fairly, and with thorough independence, on all questions of public importance.

Its long novel, given in each number complete, by some of our popular authors, such as Julian Hawthorne, Edgar Saltus, Edgar Fawcett, Mrs. Elizabeth Bellamy and a score of other well-known names, is a characteristic of Belford's Magazine.

Prof. Sumner, David A. Wells, Henry George, Henry Watterson, John G. Carlisle, Frank Hurd, are some of the contributors to Belford's Magazine on political and economic subjects. Short stories, two or more of which are contributed to each number, dramatic notes, passing events and book reviews, combine to make Belford's one of the most readable and interesting periodicals now before the public.

Send for a three months' trial subscription, 75 cents; \$2.40 a year, 26 cents a number. Enclose six cents for sample copy. BELFORD, CLARKE & CO., New York.

### A SUPERIOR EDUCATION AT HOME.

### THE STATE UNIVERSITY,

OF NEVADA, LOCATED AT RENO, OFFERS excellent opportunities to young men and young women who desire to obtain a good education at a reasonable cost. This institution being a part of the public school system of the State, is free to all residents of Nevada.

### Five Schools or Departments

1. Have been organized in the University.
1. The School of Mines and Mine Engineering.
2. The School of Agriculture.
3. The Normal School.
4. The Business Department.
5. The Academic Department.

### The School of Mines and Mining Engineering.

Includes a thorough course of study in mathematics, natural science and the English language. Graduates of this school will receive the degree of Mining Engineer.

### The School of Agriculture.

Includes the fundamental branches of mathematics, natural science, the English language and observations and experiments connected with the farm and garden. Students in this school will be given an opportunity to defray portion of their expenses by working on the University farm.

### The Normal School.

Includes the studies pursued in the elementary and high schools of Nevada, the history of education and the theory and practice of teaching. Graduates of the Normal School will receive certificates valid in any public school of the State.

### The Business Department.

Includes the study of Arithmetic, book-keeping, commercial law, business forms and the English language.

### The Academic Department.

Includes English, Latin, mathematics and natural science. Graduates of this department will receive the degree of Bachelor of Arts.

The University is equipped with a library, cabinet and physical laboratories. First-class facilities for chemical analysis and assaying are being provided.

Practice in reading, singing, declaiming, essay writing and public speaking is afforded by rhetorical exercises, conducted by the Professors and by the literary societies of the University.

Room rent and good board in respectable families can be had for less than \$25 per month. The next term of fifteen weeks will open

Wednesday, January, 2, 1889

For further information address

**LEROY D. BROWN,**

President of the University, Reno, Nevada.

50 Cents—A BOX—50 Cents

—WHOLESALE AND RETAIL AT—

# Osburn & Shoemaker's.

SENT BY MAIL ON RECEIPT OF PRICE.

## NEW ORLEANS, La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily endorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

EUGENE ROBINSON,

Proprietor Robinson's Circus and Memphis and New Orleans Museums and Theatres.

## CABINET SPECULATIONS.

Representative Morrow Goes to Indianapolis to Visit Harrison.

WASHINGTON, Feb. 19.—Representative Morrow left this city last evening for Indianapolis. He carried with him a letter signed by all the Republicans in the Pacific Coast delegation and addressed to General Harrison. All of the Republicans in the delegation from the Pacific Coast met in Senator Stanford's committee-rooms yesterday, and, after discussing the matter for an hour or more, decided to write a letter to General Harrison simply urging the importance of his placing some one from the Pacific Coast in his Cabinet. The letter did not read that he should take some one from California, Nevada or Oregon, but simply from the Pacific Coast. It was further distinctly understood that the letter was to be entirely neutral as to candidates, and that the messenger who bore it to Indianapolis should pledge himself before starting, that he, too, would be entirely neutral as to the candidate. The selection of any prominent man from the Coast would be satisfactory to the party.

## CHANCES FOR THE COAST.

WASHINGTON, Feb. 19.—John B. Henderson, of Missouri, is in the city. He visited the President-elect at Indianapolis last week, and says that his impression from a remark made by Mr. Harrison is that M. M. Estee will be appointed Attorney-General. General Harrison will have an opportunity to learn from Representative Morrow, who has gone to Indianapolis as the representative of the Pacific Coast delegation in Congress, the views of that body on the subject of the Cabinet. Mr. Morrow is not directed to present the name of any individual for appointment, but to lay the claims of the Coast before the President-elect and to answer any questions that may be asked.

## A VERMONT STATE TO THE FRONT.

INDIANAPOLIS, Feb. 19.—Ex-Governor Redfield Proctor, of Vermont, had an interview with General Harrison yesterday. He headed the Vermont delegation at the Chicago Convention, casting a solid vote for Harrison. In case Miller, of New York, persists in refusing the Agricultural Department, the impression prevails it will be given to Proctor.

## THE CABINETMAKERS STILL AT SEA.

INDIANAPOLIS, Feb. 19.—Among the politicians great doubt has been expressed to-day as to whether Wanamaker, Rusk, Thomas, or even Noble, will be given seats in the Cabinet. The greatest interest seems to be centered in the Pacific Slope. Many Republicans openly declare it will be a breach of good faith if the Slope is ignored, and they refuse to admit that it will be. But after all there is nothing but conjecture, for no one has any positive information on the subject.

The General and his family have actively begun work preparing for their removal to Washington.

Otis L. Perry, aged 12, of Fairview, Pete county, Utah, while on a haystack the other day exclaimed, "I feel like an angel and if I had wings I could fly," when he fell off the stack along with a knife. The blade passed through his side, inflicting injuries from which he died in nine hours. His mother is bedridden and his father was out in the desert tending sheep at the time.

The Enterprise calls for the resignation of Chairman Boyle and Secretary Lord, of the Republican State Central Committee, because of lottery letters sent out by the Secretary during special election times, committing the Republican party to the proposition, but which action was entirely unauthorized by the Republican State Central Committee.

In several parts of Poland the wolves have, in consequence of the severe weather, appeared in such numbers as to have become a source of grave danger to the inhabitants. All kinds of live stock have been destroyed by the ravenous beasts, and there have been one or two narrow escapes from death of the inhabitants.

The positive announcement is made that the President elect and family will leave for Washington next Monday afternoon, and from now until then they will receive no callers, except by special appointment or correspondence.

The Direct Tax bill has finally passed Congress and the Nevada Legislature can now place the \$3,000 coming to Nevada where it will do the most good.

It is now believed in Washington that either Estee or Swift, will have the office of Secretary of Agriculture in Harrison's Cabinet.

There will be a riot on this Coast if California does not get a man in the Cabinet.

## WYOMING WANTS TO BE A STATE.

Something About Her Resources, Industries and Population.

CHEYENNE, Wyo., Feb. 10.—At present the most pertinent question in Wyoming is Statehood. It is discussed everywhere. On the ranch, in the mine, even in the far-off cabin of the hunter or prospector the query, "Will Wyoming get in?" is debated.

To the outsider, whose knowledge of Wyoming is limited to the facts that the area of the Territory is 90,000 square miles and the population about 90,000 or one person to each square mile, it is perhaps a natural conclusion that Wyoming had better wait for the privilege of Statehood until she has at least two people to the square mile to enjoy it. But the Wyomingites won't have it that way, and with the exception of Gov. Moonlight, every individual of the 90,000 is for Statehood. The Illinoisan or Nebraskan who attempts to cough down a Wyomingite with the argument that Wyoming hasn't population enough to warrant Statehood will be confronted with the fact that Illinois was admitted with less than 45,000 population, Nebraska with 60,000, Colorado with 64,000, Oregon with 40,000 and Mississippi, Arkansas, Missouri, Alabama and Louisiana with about 50,000 each. The Wyomingite will also proudly advance the argument that the credit of Wyoming is better to-day than that of half the States; that the Territorial bonds recently issued for the building of public buildings sold in Chicago at a premium of 10 per cent.

Perhaps no State, formerly a Territory, was so well prepared for Statehood at the time of its admission as Wyoming is at the present time. The Capitol Building at Cheyenne, completed and occupied, is a better building than a score of the States now have, and would do credit to any Commonwealth in the world. The University building at Laramie is a magnificent structure, fully equipped with all the requirements of a modern educational establishment, a Territorial penitentiary is almost completed at Evanston, and a deaf and dumb school, an insane asylum, and a poor farm are located in other towns. With all of these institutions completed the indebtedness of the Territory will be but \$300,000.

The diversity of the natural resources and industries of Wyoming insures a stability and permanency of growth in Wyoming lacking in other Territories. Wyoming has coal, oil, iron, sulphur, soda, lead, copper, silver, gold, salt and countless other minerals. Over 20,000 square miles of the Territory are underlaid with coal. The output of the few mines in operation last year was over 3,000,000 tons. Wherever tested the oil fields have shown that in quantity and quality Wyoming rivals Pennsylvania and West Virginia. Stock-raising has been and will continue to be a profitable source of wealth in Wyoming. Over 2,000,000 head of cattle range on the natural pastures. As the agricultural interests increase stock-raising will merge with farming, and the two conducted in connection will form a permanent and profitable industry. A distinctive feature of Wyoming is that it outstrips all the States and Territories in the arid region in the number of streams available for irrigation. There are at present over 2,000 ditches constructed, watering an area equal to the whole of the irrigated district of France and Spain combined. They are distributed through a region as large as the whole of New England. With the agricultural system of the Territory scarcely established there are lands enough under ditches and ready for the plow to make 20,000 eighty-acre farms and engage the efforts of a purely agricultural population of 200,000 people.

The population of Wyoming is, perhaps, more truly American and less tainted with foreign elements than in any other State or Territory in the Union. With the exception of a few foreigners working in the coal mines, the citizenship of the Territory is made up of emigrants from nearly every State, and is American in all that term implies, and particularly so in the love of self-government, knowing that they have the intelligence and ability to manage their own affairs.

It is the intention that the U. S. Senate Committee shall visit during the recess of Congress all the States and Territories where irrigation is required, to learn by personal observation the characteristics of the country, with the view of devising a system of irrigation which shall be suitable to the various localities. If there is no extra session the committee will probably commence its investigation in May or June, and will continue their explorations until they are satisfied that they will be able to devise a system whereby the greater part of the arid lands susceptible of irrigation may be reclaimed.

On account of the illness of Mrs. Stanford, there will be no more receptions at their Washington house this season. The Senator has recalled his invitations for the proposed Senatorial dinner.

## The Union Pacific Indebtedness.

WASHINGTON, February 13.—The Senate's special committee on the President's message relating to the Union and Central Pacific Railroads had a meeting to-day and decided to ask that the Union Pacific funding bill, which has been on the Senate calendar all this session as a special order be committed to the Committee. This action precludes the possibility of accomplishing any legislation on the subject at this session.

The Bulletin wants to know what is to become of the Solid South when Democratic members of the Arkansas Legislature resign in favor of Republicans, who were beaten by the stealing of ballot boxes? This is a blow at the vital principle of Bourbon supremacy in the South. If Republican votes are to be cast and counted there is an end to everything that has heretofore been considered politically respectable south of Mason and Dixon's line.

Archbishop Croke has written a letter expressing disapproval of the emigration of 500 families, now en route to Buenos Ayres. He says the revolution of 1848 brought to Buenos Ayres the sum of European scoundrelism, and asks how the poor emigrant is likely to fare as regards religion. If, he adds, the Irish people must leave the land they love best, let them direct their steps to the Great Republic of the West, or to English-speaking colonies.

The Hon. John A. Kasson, who once filled the position for a few months, is a candidate for appointment as Minister to Germany.

## The Sons of Grant and Logan.

From the New York Tribune.  
Col. F. D. Grant and John A. Logan, Jr., were among the visitors at the Fifth Avenue Hotel yesterday. They spent a long time talking together in the corridor. Mr. Logan is interested with his father-in-law in the iron business, but is giving special attention just now to his lime-stone quarries at Youngstown, Ohio, where he lives. His visit here is not of a political nature, for, unlike Col. Grant, he has no particular desire for public office at present. Col. Grant, however, wants the Chinese mission, and makes no secret of the fact. "I am not making any effort to secure the position," he said, "nor do I intend to do so. I would like to go to China, because I think I could do more good there than in any other place. My father, as you know, was greatly liked by the Chinese Government. They appreciated his kindly policy toward them, and showed this when he visited China in his tour around the world. While with him there I made the acquaintance of many of the leading Mandarins, which I'm sure would be valuable to me and to our Government."

## The Sunday Newspaper.

Cincinnati Commercial Gazette: Several eminent doctors in Chicago are fighting newspapers as inimical to "Sunday rest." Let but the head of the family miss his regular Sunday morning newspaper by some misconnection of carriage and see how restless he will be during the whole day. The Sunday newspaper is as satisfying and restful as the sermon.

## The Foreigner the Better.

Washington Post (Ind): The Republican party with great unanimity would be delighted if Gen. Harrison would appoint Gen. Mahone to some foreign mission, and thereby secure a united Republican party in Virginia.

## Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clunkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nasbys, or of Phil Allgier, the drayman.

## The Expiring Kick.

Washington Press: The ruling passion has an excuse for being strong in death, but for this Administration to undertake revenge upon all its Democratic critics would be to turn a lone-some funeral into a screaming farce.

## What Am I to Do?

The symptoms of biliousness are unhappily but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and farred it is rough at all events.

The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans.  
ROYAL BAKING POWDER CO.,  
166 Wall St., New York.

## BREVITIES.

H. F. Dangberg is in town.

Washington's birthday to-morrow.

The weather continues delightful.

Everything is quiet on the Truckee.

Con. Va. advanced to 8 1/2 yesterday.

Walter Cutting, of Sierra Valley, is in town.

Uncle Jake McKissick is in from the north.

J. P. Meder, of Carson, went below last night.

B. H. McClure, of Carson, was in Reno last night.

R. W. Parry returned from the Bay yesterday morning.

F. O. Robins, of Winnemucca, has gone East on a visit.

D. L. Bliss, of Carson, returned from the East last evening.

Judge Wells and wife came down from Carson last night.

Chat Roberts has sold out his hotel at Chat to his son Bedford.

Prof. Urbain left yesterday for Europe, and will be absent two months.

The Louisiana lottery ticket sellers in Reno have decided to quit the business.

Five members of the Griner family, at Washoe city, are down with bilious fever.

Geo. Campbell has leased his ranch at Essex and, with his mother, removed to Reno.

J. N. Evans asks \$250 per acre for his fine lands adjoining the University grounds.

Mrs. T. V. Peers has purchased the smaller one of the Lyman houses on Lake street.

There are between five and six hundred children attending the public schools of Reno.

Go to Lange & Schmitt's for everything in agate ware. Largest assortment in the State.

An assessment of 50 cents per share has been levied by the Belcher Mining Company Trustees.

The carpenters are busy arranging scaffolding so as to put the third story on the Palace hotel.

Another draft will be made in the State Printing office this week. One by one the roses will fall.

The members of the Young Men's Institute will give a social entertainment this evening at Truckee Lodge Hall.

The State Fair Directors are willing to allow the University the new Fair Grounds for an Experimental farm.

The Eureka Consolidated Mining Company reports having been overdrawn at the bank to the extent of \$4,523 85.

The Navajo Mining Company has declared a dividend of 10 cents per share, aggregating \$10,000, and payable March 1.

Celebrate the birthday of the "Father of our Country" to-morrow by attending the Red, White and Blue Social in the evening.

A brother of John Wright is here on a visit from Grand Rapids, Michigan. The brothers had not seen each other for thirty years until yesterday.

The University bill passed the Senate yesterday afternoon. It appropriates \$48,000 for the maintenance and improvements at that popular institution.

W. W. Williams is preparing to resume operations on his mines at Bernie, and will set a number of men at work about March 1st. Something of a boom in the mines of that district and Cottonwood is looked for the coming Summer.

Orrin Ross is to be sued for \$10,000 damages because of the mishap to the Barnett boy, on account of the accidental discharge of a gun in the hands of Mr. Ross' boy. The accident happened before the Asylum last Fall.

It is more than likely that, as Friday, the 22d inst., is a legal holiday, both Senate and Assembly will adjourn from to-night to Monday afternoon, the 25th inst. The legal allowance of sixty days for the session in which the legislators can draw pay will end at noon on March 7th.

Nevada potatoes are a drug in the market this season. California has been reinforced by Oregon, and Nevada potatoes can hardly be sold at any price. Besides the railroad company charge \$6 per ton freight from Reno to Sacramento. In the condition of the market they ought to reduce one-half.

Attention.

Reno Division No. 2, U. R. K. of P. You are hereby ordered to report in full uniform at Armory Hall Friday evening, February 22d, at 7:30 o'clock sharp. Installation of officers and other important business.

H. J. THYER,  
1st Lieut. Commanding.

## WANTED AT THE EAST.

California Horses in Great Demand at High Prices.

The San Francisco Call says: The envious eyes of Eastern horsemen seem to be fastened on California with a view of draining the State of the great stallions that have placed it in the first rank among States for the raising of thoroughbred horses. The many fine stallions that have left this State during the past few months and the enormous prices paid for them have proved clearly that California horses are in great demand.

When it was rumored a few days ago that \$50,000 had been offered for Stamboul, there were many expressions of regret in anticipation of his being lost to this State, but the bid was questioned. The offer, nevertheless, has been made, and would have been accepted by L. J. Rose before now but for the fact that there is another bid for the horse at the same figure. The first offer was received a few weeks ago, but owing to certain complications it has, though not accepted, interfered with the acceptance of the last bid made by Mr. Crawford through Orin Hickok. The parties who made the first offer were given the refusal of the horse until the 24th inst. They intend to bid for Bell Boy at the great sale at Lexington, which commences to-day. If they fail to secure Bell Boy they have agreed to purchase Stamboul. Mr. Hickok is not very well pleased with the state of affairs, and is afraid that both offers may fall through.

## AN IMPORTANT SALE.

W. H. Allen, of the contracting firm of Allen & Veib, has been for some time past negotiating the purchase of several of the Wilkes family from William Corbett, of the San Mateo Stock Farm. Mr. Allen was anxious to secure either Guy Wilkes or Sable Wilkes. Mr. Corbett refuses to sell either of the stallions, though he has had the tempting offers of \$75,000 and \$50,000 for them respectively.

Failing to get either of the horses, Mr. Allen commenced negotiations for the purchase of some of the youngsters. He at first wanted seventeen of them, but Mr. Corbett would not part with all the untired stock that Mr. Allen desired.

A sale was consummated yesterday of seven head of Guy Wilkes' progeny. The amount paid for the seven head is in round figures \$80,000. The stock will remain at the San Mateo farm until Mr. Allen is ready to receive them, it being deemed dangerous to ship them at once as some of the mares are with foal.

A bay yearling filly by Guy Wilkes, dam Ruby, 2:15 1/2, brought the highest price. This is not surprising when it is considered that Ruby is a full sister to the noted Stamboul—2:14 1/2.

The others in the lot are: Minnie Wilkes, by Sultan, dam Kittie Wilkes, by George Wilkes; Sable Hayward, out of Sable, dam of Sable Wilkes; Hindu Wilkes, by Guy Wilkes, out of Rosetta; a yearling brown filly by Gus Wilkes, dam Sable; Jet Wilkes, by Guy Wilkes, dam Sable, and a black yearling filly by Guy Wilkes, dam Atlanta, who is a full sister to Beautiful Bells, 2:20 1/2.

## HORSES FOR NEW YORK.

On Thursday seven car-loads of trotting stock will leave this city for New York, where they are to be sold at auction on March 7th. The sale will be second only to the Kentucky sale. The horses will be exclusively Californian, and from the farms of L. J. Rose, W. A. Coburn, Count G. Valentin, C. A. Durlee and M. Johnson. They are the gets of such sires as Stamboul, 2:14 1/2; Alcazar, 2:20 1/2; Guy Wilkes, 2:15 1/2; Monroe Chief, 2:18 1/2; Sultan, 2:24; Sidney, 2:19 1/2; and Antelope, 2:19 1/2.

The catalogue of Mr. Rose's stock is attracting a great deal of attention from the Eastern sporting papers. The youngsters of Stamboul are anxiously awaited. Alcazar's youngsters are also sure to command a good share of attention. Alcazar is as tall and long but not so heavy as Stamboul. He is a horse of great muscular development. He is not so blocky in appearance as Stamboul, being more of the greyhound build. His dam, Minnie-haba, was the dam of the greatest producing broodmare of her age, Beautiful Bells. She is dam of Bell Boy, 2:19 1/2 at 3 years; St. Bel, 2:24 1/2 at 4 years; and Palo Alto Bell, 2:28 1/2 at 2 years. Alcazar is more than a half-brother to Beautiful Bells. In addition to their common dam, Beautiful Bells was by The Moor, and Alcazar is by Sultan, The Moor's best son.

## WILLIAM CORBETT'S STABLE.

William Corbett's stable will give Mr. Rose's a hard brush for first place in the amount of money obtained, though his stock will be fewer in number. The Wilkes blood is well known, and the catalogue of Mr. Corbett's stock bristles with the brilliant pedigree of this noted family. Thirty-six Wilkes youngsters will parade before Peter Kellogg's number in New York. Guy Wilkes, the sire of most of these, is the greatest son of George Wilkes. His qualities do not come exclusively from the sire's side of the house. His dam was by Mambrino Patchen and it was from daughters of Mambrino Patchen that George Wilkes got Baron Wilkes, 2:18; Alejona, 2:27; Rosa Wilkes, 2:18 1/2; Alcazar, 2:23; Georgiana, 2:26 1/2; Wilkes Boy, 2:25 1/2.

The consignment of Mr. Valentin will contain good stock by Sidney. Sidney is a bay stallion 8 years old, 15 1/2 hands high, by Santa Claus, 2:17 1/2, out of Sweetovers, 2:21 1/2, by Volunteer.

There is no objection among horsemen to young stock going East, but there is a murmur on every side on account of the sale of the stallions.

D. McKissick has bought the two little restaurants that adjoined each other above the Palace Bakery, on Virginia street, and has put the two in one. The improvement is noticeable, and being a good caterer Mr. McKissick will do a nice business at the old "Silver State" stand.

The Gazette properly says: Business (?) men who send away for their letter and billheads have no right to complain about people who buy their groceries, dry goods, etc., outside of their own town.

## IRRIGATION.

Senator Stewart's Views on the Question.

The subject of irrigation is now exciting so much attention that the following extracts from a letter written by Senator William M. Stewart to a personal friend in San Francisco will be of interest:

I have written an article on irrigation which will appear in the March number of the Forum. I may find time to write another article on the same subject covering more ground and introducing new phases of the question. I regard the irrigation question, next to the money question, as one of the most important subjects now before the country. Twelve thousand square miles of the United States require irrigation in order to produce successfully.

It is in my opinion the duty of the Government to make surveys for ditches and reservoirs, and to estimate the cost of hydraulic works in each particular water shed where water can be obtained by storage or otherwise to irrigate sections of land. If this were done and suitable laws passed whereby title could be easily acquired, our enterprising citizens would combine, construct the necessary work and reclaim the land.

British India, with an area of 800,000 square miles, supplies over 200,000,000 inhabitants with food to support and sustain life. Our arid region is entirely similar to that of India, and its possibilities are immense. Our population, from natural causes and immigration, is rapidly increasing and a larger area of agricultural territory is required. The importance of this question is apparent when we take into consideration the fact that nearly all the public lands of the United States are situated in the arid regions.

I am pleased to know that the miners are making the effort to secure the appointment of a State Commission in connection with the commission appointed by the United States to investigate the debris question and ascertain if it is possible, without material injury to navigation and in the valley farming land, to liberate the vast deposits of gold encased in the Sierra Nevada mountains, so necessary for use as money and in the arts for commercial purposes.

When all the parties cease to make the debris question a matter of speculation to make money or to use it as a political machine, a solution of the vexed question will be soon reached. Practical common sense and engineering skill will, in my opinion, devise a means whereby both the mining and the farming interests of California may be prosecuted without injury to any one.

The previous article in the Chronicle will do much good. I consider the Chronicle one of the best newspapers now published in the United States, viewed from a standpoint of news and practical business sense.

## Money at Home.

In the "town talk" of the Enterprise appears the following:

Morris Levy—I have done business in Virginia for many years, as you know, and I am exceedingly pleased at the treatment I have received at the hands of this people. But I am so deeply interested in business ventures, both in Reno and Eureka, it may not be amiss for me to make a few comparisons with regard to the three towns as business towns, basing them upon the volume of my business and investments. In Virginia City, with a capital investment of from \$50,000 to \$75,000 in stock (and it requires all of that to do business here), where we have a pay-day of over \$200,000 a month, I don't do as much business as I do in Eureka with a capital stock of \$30,000, where the monthly pay-roll does not reach \$50,000. In Reno there is no monthly pay-roll to speak of. There I require a stock nearly as big as I do in Virginia, and my business is steady. The deductions I draw from my business experience in the three towns named is that the bulk of money paid for wages in Eureka and the circulating currency of Reno remains in those towns, while in Virginia it is shipped away as soon as it is received, and goes to make some other place lively.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21—aw f-1v

## PALACE DRY GOODS STORE.

## STOCK-TAKING BARGAINS!

UNEQUALED VALUES.

AT THE

## PALACE

## Dry Goods and Carpet House

Beginning Monday, February 11th.

THE NEAR APPROACH OF OUR annual stock-taking prompts us to make another heavy cut in some of our Departments, as we wish to largely reduce our stock previous to that time. To illustrate the ENORMOUS REDUCTIONS made, we this week quote some prices from our Dress Goods Department, especially of Black Goods, and assure our patrons that a visit to our store will repay them by the offering of IRRESISTIBLE BARGAINS.

## DRESS GOODS DEPARTMENT:

At 50 cents, 10 pieces Black Real Mohair Sicilian, 55 inches wide...worth 75 cts  
At 50 cents, 8 pieces Black Iron Frame Alpaca, 40 inches wide...worth 75 cts  
At 65 cents, 6 pieces Black Real Mohair Silk Finish Alpaca, 40-inch...worth \$1  
At 75 cents, 9 pieces Black Real Mohair Sicilian, 40 inches wide...worth \$1.15  
At \$1.00, 7 pieces Black Real Mohair Brilliantine, 40 inches...worth \$1.50  
At 50 cents, 5 pieces Black All Wool Cashmere, 38 inches wide...worth 75 cts  
At 75 cents, 8 pieces Black All Wool Cashmere, 40 inches wide...worth \$1.00  
At \$1.00, 6 pieces Black All Wool Cashmere, 40 inches wide...worth \$1.50  
At 75 cents, 4 pieces Black All Wool Scotch, 40 inches wide...worth \$1.25  
At \$1.00, 6 pieces Black All Wool Heather Cloth, 40 inches...worth \$1.50  
At \$1.25, 10 pieces Black All Wool Scotch Armure, 42 inches...worth \$2.00

There will be great bargains in all of our Dress Goods, as the shelves must be cleared to facilitate stock-taking.

## House Furnishing Department:

7 pieces Loomdise Table Damask...reduced to 35 cents per yard  
5 pieces extra heavy quality Loomdise Table Damask...to 45 cents per yard  
4 pieces cream double Damask Table Linen...reduced to 75 cents per yard  
5 pieces bleached Table Damask, All Linen...at 50 cents per yard  
4 pieces bleached Table Damask, excellent quality...at 75 cents per yard  
10 pieces Walkshire Huck Toweling...at 4 cents per yard  
50 Comforters...reduced to 75 cents each  
40 pairs 10-4 White Blankets...still at \$1 per pair  
12 pieces Checked Nainsook...reduced to 8 1/2 cents per yard

To insure an immediate clearance we offer these goods at CORRESPONDING REDUCTIONS from regular prices and thus give our patrons and the general public an opportunity to secure bargains infinitely superior to any before offered. Respectfully,

## Palace Dry Goods and Carpet House.

Country Orders Promptly and Carefully Executed.

JOHN BREUNER, SACRAMENTO.

JOHN BREUNER,  
Furniture and Bedding,

604, 606, and 608 K Street.

SACRAMENTO, CAL.

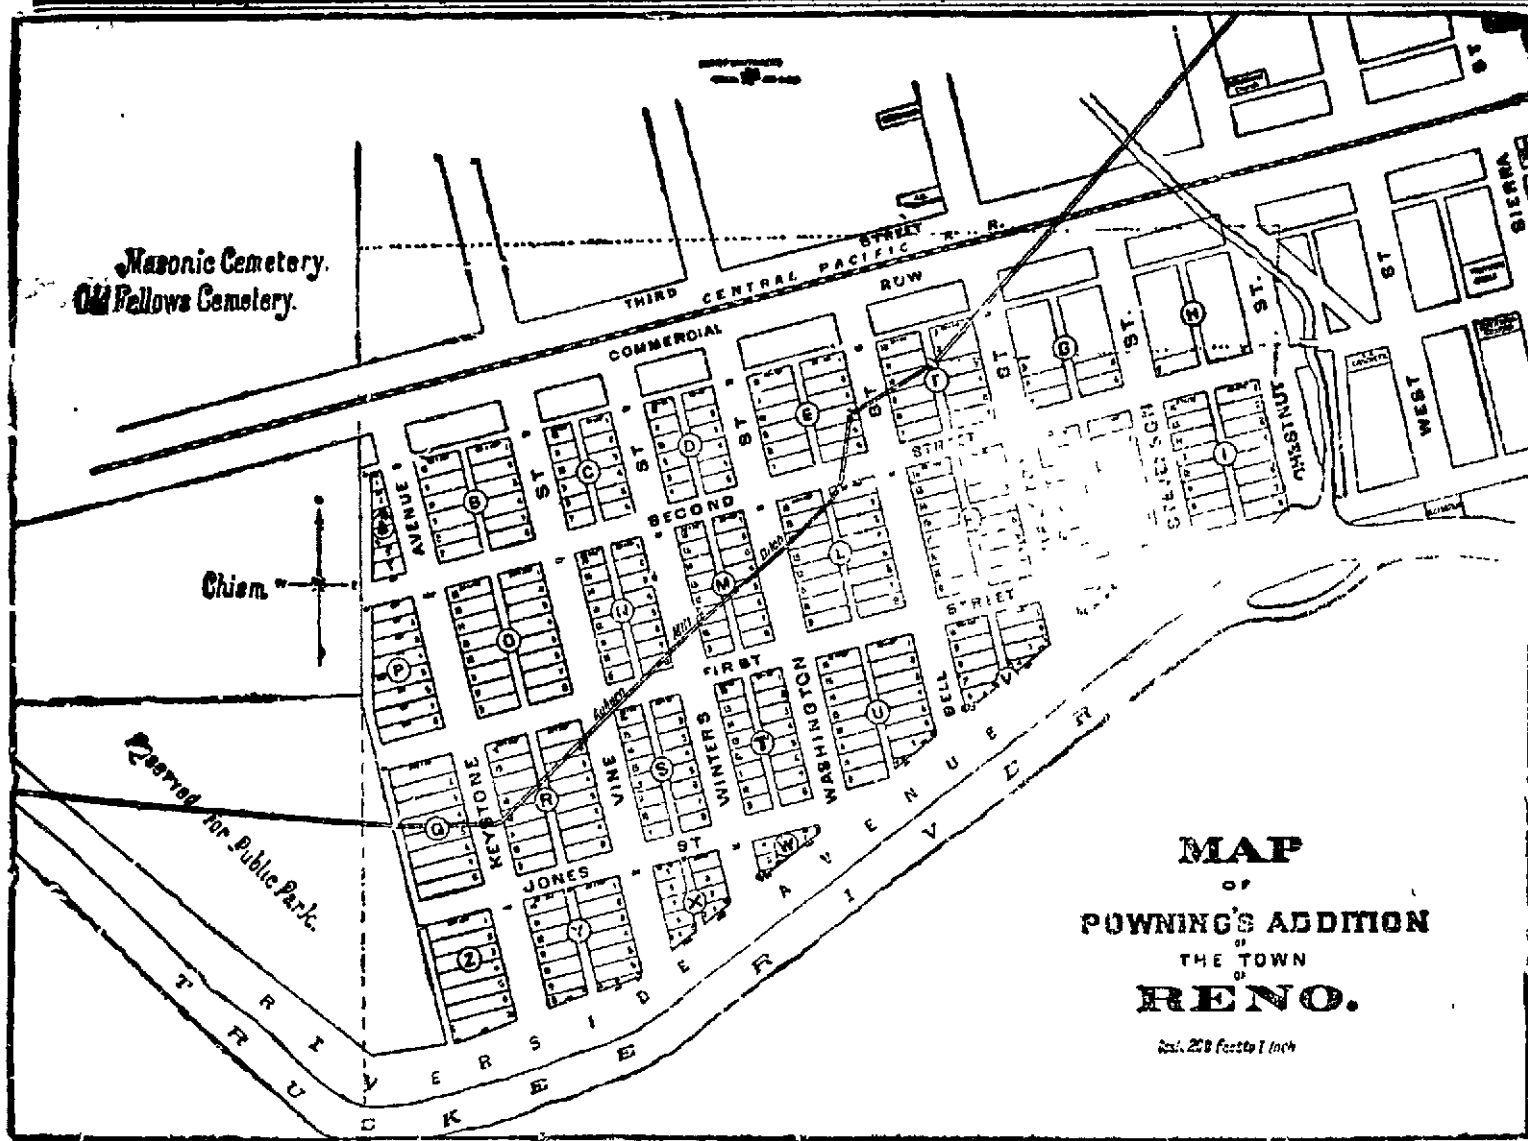

THE OLD RELIABLE FURNITURE HOUSE OF John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

RENO, WASHOE CO., N.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

### RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition. The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

### RENO!

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town!

The Cleanest Town!

The Wealthiest Town!

The Healthiest Town!

### RENO

Is Supported by the Richest

Farming Country of Nevada,

Northern California and

Southern Oregon.

### RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

### RENO!

Is the Railroad Center of Nevada.

### RENO
